Early United States Stamps

We offer the following Early United States stamps in three Grades. Grade I contains sound stamps centered from Fine to Very Fine. Gr. II - Sound stamps centered from Average to Fine. Gr. III - Collectible stamps with minor de-fects.

Stamps are in used condition unless described as unused or MNH, and in **BOLD TYPE**. MNH means Mint Never Hinged, and indicates stamps with full undisturbed original gum. Unused stamps have original gum, but have been hinged. No gum indicates stamps which have never been used, but do not have gum. LP indicates Line Pair.

About America's Great Classic Stamps...

As you can see from the stamps listed on this page, many of America's earliest stamps are attractively priced. Even though some of them are more expensive, you can still assemble a wonderful representation of these great classics. A good suggestion: try to acquire at least one stamp from each of the separate early definitive issues by their year of issue: 1847, 1851, 1857, 1861, the 1867-68 grilled issues, 1869, and so on. In this manner you will have very nice examples of how America's postage stamps evolved and developed during their earliest years. Each one of these stamps is a distinctive work of art...the result of the meticulous line-engraving process.

Our First Propaganda Stamp?

During the Civil War (1861-65), the Union saw an opportunity to issue a stamp that would send a message to the Confederate States. When a new 2-cent stamp was needed to pay the domestic drop letter rate, they issued the famous "Black Jack" depicting Andrew Jackson who, even though a Southerner (from Tennessee), had been an ardent opponent to secession. The stamp, because of its striking almost photographic picture of Jackson, became one of the most popular stamps in history. What did the Confederacy do when this stamp was issued? They issued their own two-cent Jackson stamp because the 7th President had still been very much a Southerner!

1867 GRILLS

From 1867 until 1870 the Post Office experimented with embossing grills into the paper of current stamps, the idea being that the broken paper fibers would soak up the ink, and prevent reuse. They come in various sizes.

The Tale of the First Pictorial Issue...

In 1869, the U.S. Post Office Department issued a new set of definitive stamps which were colorful and highly pictorial in nature. They lasted for only one year before being replaced! Apparently, the public had grown used to more simple depictions of our founding fathers and major leaders on their postage stamps and the set proved highly unpopular.

Not so with stamp collectors. To this day, the 1869 issue, with its famous inverted centers on the 15, 24 and 30-cent stamps remains one of the most popular and highly sought after of all of America's stamps. Obtaining them in well-centered condition is extremely difficult.

Our First Commemorative Issue...

(The Columbian Exposition in Chicago), is one of America's most beautiful issues. The entire set honored the discovery of America and the various Columbus expeditions.

However, when it was issued the set was not popular at all among stamp collectors (even though it is highly sought after today).

The reasons: not only was the face value (\$16.36) quite high for that period (almost a month's pay for most Americans), but there seemed to be no postal need for the dollar values. Over the years, though, completing the set became the philatelist's #1 goal.

America's Largest Regular Issue...

The Washington-Franklin definitive issues of 1908-21 occupy nearly 200 catalog numbers. Though at first look they appear to be a bit dull in that they depict only these two founding fathers, this range of stamps is one of the most collectible and popular among collectors of U.S. stamps. A perforation gauge and watermark fluid will enable you to easily identify most of these issues in seconds. They were issued in many formats, from the early vending machine coils and booklet panes, to imperforate versions and various sizes of perforations and watermarks.

Golden Valley Minn Stamp

2024 Price List United States of America NOTES ON THIS SECTION:

United States Stamps From 1920 through 2023. Starting with catalog #548, stamps are listed in three columns: MINT NH (fine to very fine stamps with original gum that have no hinge marks); MINT OG (the same, but hinged) and Used.

Later issues have an added column for plate blocks (or Line Pairs). These are Fine to Very Fine and NH, unless otherwise described. [BK] indicates that the stamp is from a booklet.

HOW TO USE THIS CATALOG:

Just list the Catalog Number on the enclosed order blank, along with a brief description and price. Please try to keep the items in numerical order, as it makes order filling more accurate for you. Please note that, unless otherwise noted, these prices are for stamps centered Fine to Very Fine. Very Fine stamps are often available, but command higher prices. Mint year sets contain attached se-tenants, while used sets include singles. Items followed by an (*) asterisk are not included in year sets. For some issues, we have listed prices for stamps in Grade II or Grade III. Grade II stamps are sound, but off center, and Grade III stamps are bargain priced because of minor defects.

SATISFACTION GUARANTEED!

Anytime you order a stamp from us, you can be sure that, if you're not satisfied, you can return it for a full refund

— **YOU must be satisfied! We appreciate your business.**

1935 FARLEY SPECIAL PRINTINGS

Postmaster James Farley's "Follies" of 1935 created excitement then, and a very interesting area for collectors of today. These stamps (Scott catalog Numbers 752-771) were issued without gum, and imperforate, except for 752 and 753 which are perforated. Since they were available to the public in uncut sheets, they were available with gutters or lines between the stamps. These are collected in either vertical or horizontal gutters or lines, and in blocks of 4 with gutters or lines in both directions. The illustrations on the next page will help you in ordering the items you need. In the headings, line can mean line or gutters.

GUIDE TO USING THIS CATALOG

Here is a listing of information designed to make using our catalog a little easier.

TERMS

Mint NH - Full original gum that has not been hinged, ie no hinge marks on the gum. We don't sell hinged stamps after about 1932. Earlier issues command large premiums for NH- sometimes more than double!

Mint OG - Full original gum with marks from a hinge. Not available after 1932.

Used - Stamps which have been through the mail and received a cancellation.

Plate Block - A block of 4 or more stamps with a plate number in the attached selvedge. The number of stamps required to make a plate block is dependent on the arrangement of the plate numbers. In our listings, if a plate block has more than 4 stamps it will be listed in ().

Line Pair - This is a definition that seems to be very confusing. Before about 1985 coil stamps were issued in rolls with a line every 25 or so stamps, They are collected as pairs with a line between. Many seem to confuse this with a regular pair which does not have a line. We price line pairs individually. If you want a regular pair just double the price of a single stamp.

PNC - This stands for Plate Number Coil. Starting with the Transportation coils, plate numbers were added, and became popular in strips of 3 or 5 with the number in the center. We offer PNC strips of 3. If you need 5 add the cost of 2 single stamps to the PNC price.

Early stamps by grades

We list stamps before 1920 in 3 grades.

- Grade I stamps are centered from Fine to Very Fine, and are without faults.

- Grade II stamps are centered from Average to Fine and are without faults.

- Grade III stamps are stamps with defects. Stamps listed in regular style print are used, while those in bold print are Unused. The unused stamps are further described as: Mint NH, Unused (the same as Mint OG above), and Unused No Gum.

The Confederate States of America...

Not too long after the southern states seceded from the Union and founded the Confederate States of America, the fledgling new government began to issue postage stamps. Though there are only 14 of these stamps, they are truly a piece of American history...and most of them are still obtainable at attractive prices. All of these stamps come imperforate, even though two of the stamps were privately perforated. The Confederacy had great difficulty printing their stamps (paper shortages were a factor) and some appear rather primitive. But notably, their Post Office Departments were able to actually make a profit!

WE ARE

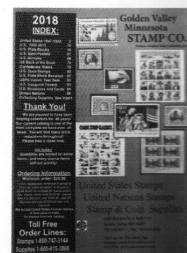

GOLDEN VALLEY STAMP AUCTIONS

Our monthly stamp auctions offer a large selection of U.S. and Worldwide stamps. In addition to auctions twelve times a year with thousands of individual sets, singles, plate blocks and covers, we also offer Box Lots & Collections Auctions twice a year that contain a variety of collections and accumulations —and we **ARE HERE** to accept consignments at reasonable terms.

AND WE ARE

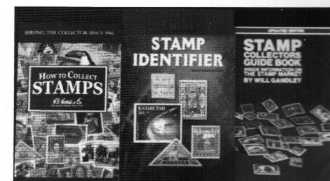

We are pleased to offer one of the most comprehensive inventories of U.S. and U.N. stamps anywhere, with over 15,000 items in our easy to use shopping cart. View our huge selection, from Classics to Current issues, at <http://www.minnstamp.com> or order our FREE 104 page illustrated catalog of U.S. and U.N. stamps.

We also ARE HERE to purchase collections.

AND WE ARE
